	Financial Status Report - All Non-Medicaid	1 of 72

## 1.0 General Report Overview

Effective October 1, 2017, the Michigan Department of Health and Human Services (MDHHS) has modified the functionality of the Financial Status Report (FSR) bundle. The modification to the FSR bundle is designed to increase reporting efficiency for the Community Mental Health Services Programs (CMHSPs) and the Prepaid Inpatient Health Plans (PIHPs) Regional Entities. The FSR bundle will now allow FSR reporting specific to the needs of the reporting board. There are three FSR report types; CMHSP (Non-Medicaid reporting), PIHP (Medicaid/Affiliate CMHSP reporting) and Stand Alone (Detroit-Wayne, Oakland, Macomb). The selected FSR will only display the applicable report tabs, columns and rows.

Please note that the report tabs, columns and rows that are not applicable are hidden or relabeled to condense the FSR bundle. Additionally, the financial reporting instructions for each form within the FSR bundle have not been modified. All column, row, cell and formula references remain intact and should only be considered if applicable to the selected FSR.

The Financial Status Report (FSR) – All Non-Medicaid is a comprehensive report of all activity of the Community Mental Health Services Programs (CMHSPs). The FSR - All Non-Medicaid summarizes the revenues and expenditures of the CMHSP by program category. For each program category, the FSR – All Non-Medicaid will identify whether there is a net surplus or deficit prior to any redirection of funding. The FSR – All Non-Medicaid will also identify, for each program category, any funding redirected to meet match requirements or provide supplement to other program categories.

The FSR – All Non-Medicaid will be utilized by the Michigan Department of Health and Human Services (MDHHS) as a tool to monitor the fiscal operations of the CMHSP. In addition, this report will provide the basis for the annual contract reconciliation and cash settlement of the MDHHS/CMHSP Mental Health Supports and Services Contract (GF Contract).

The CMHSP shall comply with Generally Accepted Accounting Principles, along with any other federal and state regulations as defined in the GF Contract. With the exception of the Special Fund Account – Section 226(a) of the Mental Health Code (MHC), all revenue and expenditures are required to be reported on an accrual basis of accounting, unless otherwise directed by MDHHS policy. As such, the revenue and expenditure amounts reported must include all earned reimbursements and/or obligations regardless of whether they have been billed or collected. Additionally, any adjustments for uncollectible amounts or write-offs should be included. The FSR – All Non-Medicaid must reconcile to the CMHSP's general ledger.

The FSR – All Non-Medicaid is divided into sections for each program category. Each section of the FSR – All Non-Medicaid will evaluate the special considerations, services and funding arrangements as outlined in the GF Contract for that particular program. Included in the instructions for completion of the FSR – All Non-Medicaid will be a brief narrative explanation of each section. The sections are:

to the COVID-19 state of emergency as identified in MSA L 21-30.

The Financial Status Report – All Non-Medicaid includes cell shading to assist the end user with the completion of the form.

Report headers are shaded in light green.

Cells requiring data entry are shaded in yellow.

Cells that are formula driven and should not have data entered are shaded peach or light turquoise. The cells shaded in light turquoise represent sub-totals or totals.

Select cells have conditional formatting applied so that if an erroneous entry is made the cell will turn orange.

Worksheet protection has been enabled.

Precision as displayed functionality has been enabled. As such, Excel will utilize the displayed value instead of the stored value when it recalculates formulas.

The term “Submission Type” on the worksheet refers to the reporting period, i.e., Projection, Interim, and Final.

The following numbering / sequencing have been utilized in the FSR All Non-Medicaid:

- 1 – 99 Indicates rows where FFPs have been entered
- 100 Title row for revenue
- 101-189 Detail rows for reporting revenue. May include sub-totals.
- 190 Total row for revenue
- 200 Title row for expenditures
- 201-289 Detail rows for reporting expenditures. May include sub-totals.
- 290 Total row for expenditures
- 295 Sub-total row identifying net surplus (deficit) prior to any redirection
- 300 Title row for redirection of funds (TO) and FROM
- 301-389 Detail rows for reporting redirection. May include sub-totals.
- 390 Total row for redirection of funds (TO) and FROM
- 400 Total row identifying the remaining balance. The balance is calculated by taking into consideration available revenue less expenditures and adjusting for any redirections (TO) or FROM. For each section, this row will indicate whether there can be a remaining balance (impacts fund balance, carry-forward, lapse), whether the remaining balance cannot be less than zero or whether the remaining balance must equal zero (CMHSP must indicate how all surplus/deficits were addressed).

The FSR All Non-Medicaid – Column A: Column A is only used for select rows. Typically, for indicating values (FFP) or amounts that will be used in calculations. Each section that utilizes column A will contain language that identifies how the value or amount will be utilized.

The FSR All Non-Medicaid – Column B: Column B is used for reporting revenues, expenditures, redirection of funds, sub-totals and totals.

The FSR All Non-Medicaid – Row Layout: For the most part, all rows contain an alpha reference, a numeric reference, a description and then the amount associated to the listed elements. The alpha reference refers to the Section of the FSR (Medicaid, GF, etc.). The number reference refers to the character of the line (revenue, expenditures, etc.). The description could be a label (revenue, expenditure, etc.) or a more detailed description of the item (CMH Operations, Categorical, etc.). The redirection rows include a reference to the partner row at the end of the description.

For example – B 309 (TO) Allowable GF Cost of Injectable Medications – G301, the “B” refers to General Fund, the 309 indicates that this row represents a redirection to another row, the “(TO) Allowable GF Cost of Injectable Medications” describes that GF funds are being redirected to Allowable GF Cost of Injectable Medications, the “G 301” indicates that the partner row (FROM row) is in Section G –Injectable Medications, row 301.

REDIRECTS – (TO) FROM – Each CMHSP is expected to maintain a balanced budget. However, it is acknowledged that funding and expenditures, by category may not always be equal. The “Redirected Funds (To) From” sections will be the mechanism in which the CMHSP will identify how any funding surplus or deficit was resolved by category. The “redirects” will identify how surplus funds are used by other programs or how deficits were covered by other funding sources. In either case, the funding source must be a legitimate source of funding for the program the funding is being redirected to cover.

The redirection of GF to Medicaid requires prior approval of the MDHHS.

Every “TO” redirection will have an offsetting “FROM” transaction. The converse is also true, for every “FROM” redirection there will be a “TO” transaction. The “TO” and “From” amounts will be equal; thus, all redirections will sum to zero. Following is an example:

B 309 (TO) Allowable GF Cost of Injectable Medications – G301

This line is within the General Fund section and indicates that \$10 is being transferred “(TO)” the Injectable Medications section to fund expenditures.

G 301 FROM General Fund – B 309 \$10

This line is within the Injectable Medications section and indicates that \$10 is being received “FROM” the GF section to fund Injectable Medications expenditures.

Redirection amounts are entered in the FROM redirects and automatically linked to the TO redirects as the opposite or converse amount.

Enter the amount of expenditures eligible for 100% state funding including the total in-home cost for specialized residential services started and/or transferred to CMHSP operations after March 30, 1981. In addition, any other expenditure for services authorized at 100% state match must be reported here.

**Note:** State and County Financial Responsibility is defined in Chapter 3 of the MHC. Additionally, Section 7.3 of the GF Contract lists services that do not require the CMHSP to provide the local match obligation; thus, making those services eligible as 100% MDHHS matchable services.

#### **Row B-202 - MDHHS MATCHABLE SERVICES BASED ON CMHSP LOCAL MATCH CAP**

This cell represents the amount of 90/10% matchable services that are eligible for 100% state funding due to the CMHSP invoking 330.1308(2) of the MHC. Section 330.1308(2) of the MHC limits, in some cases, the amount of match funding required for a CMHSP that is an authority. When a CMHSP invokes Section 330.1308 of the MHC and limits the amount of match required, there is a shift of funding between local and 100% GF. The amount of expenditures eligible for 100% funding is represented here. This cell is formula driven. The formula is *less GF Local Match Capped per MHC 330.1308 (M 203)*.

Additionally, Section 7.3 of the GF Contract lists services that do not require the CMHSP to provide the local match obligation; thus making those services eligible as 100% MDHHS matchable services.

Enter the amount of expenditures eligible for 90% reimbursement.

#### **Row B-203 – 90% MDHHS MATCHABLE SERVICES – COLUMN B**

This cell represents the net 90/10 expenditures eligible for state funding. The MDHHS obligation for the 90% matchable costs are net of any related earned 1<sup>st</sup> & 3<sup>rd</sup> party revenue. Therefore, prior to calculating the MDHHS obligation, the amount of 1<sup>st</sup> & 3<sup>rd</sup>

service that is provided by the department, directly or by contract, to a resident of that county. This cell represents the 10% share of the 90/10% services (Section B – General Fund, Row B 203). This cell is formula driven. The formula is 90% MDHHS Matchable Services – Column A (B 203) less 90% Matchable Services – Column B (B 203).

#### **Row M-202 - LOCAL MATCH CAP AMOUNT**

Within certain conditions, Section 330.1308(2) of the MHC limits the amount of local match required of a Community Mental Health Authority to the amount of local match provided in the year in which the program became a Community Mental Health Authority. If the conditions as defined in the MHC have been met, enter the amount that the CMHSP local match has been capped.

**Note:** The Local Match Cap amount should not be entered unless the CMHSP is invoking Section 330.1308. An amount entered in the cell indicates that the CMHSP has invoked Section 330.1308.

The MDHHS is not obligated to provide additional state funds because of the limitation on local funding levels.

In Section Q – Remarks, the CMHSP must include notations on the calculation of the local match amount.

#### **Row M-203 - GF LOCAL MATCH CAPPED PER MHC 330.1308**

When a CMHSP invokes Section 330.1308 of the MHC and limits the local match required, there is a shift in funding from local to 100% GF. Therefore, it is necessary to reduce the equivalent amount of local match previously identified on GF 10% Local Match (M 201). The amount in this cell will be displayed as a negative; thus reducing the required 10% local match. This cell is formula driven. The formula is an IF/THEN/ELSE statement within another IF/THEN/ELSE statement embedded.

To assist with comprehension listed first will be the “common language” describing what the IF/THEN/ELSE statement will accomplish followed by the actual statement.

Basically, the formula is first looking to see if the CMHSP has invoked Section 330.1308 of the MHC. If the CMHSP has not invoked Section 330.1308, then a zero is entered for the GF Local Match Capped per MHC 330.1308 (M 203). If the CMHSP has invoked Section 330.1308, then the formula is comparing the sum of the 10% local match (M 201) and the Local Contribution to State Medicaid Match (M 205) to the Local match cap amount (M 202). If the sum of the 10% local match and the Local Contribution to State Medicaid Match is greater than the local match cap amount, then the formula calculates the amount by which the local match is reduced. The result of

this calculation will be displayed as a negative amount, thus reducing the amount of local funding being utilized.

The IF/THEN/ELSE statement is as follows: IF the Local match cap amount (M 202) is equal to zero, THEN zero, ELSE IF the GF 10% Local Match (M 201) plus the Local Contribution to State Medicaid Match (M 205) is greater than the Local match cap amount (M 202), THEN less GF 10% Local Match (M 201) less Local Contribution to State Medicaid Match (M 205) plus Local match cap amount (M 202).

#### **ROW M-204 - LOCAL COST FOR STATE PROVIDED SERVICES**

Enter the amount of expenditures associated to the local cost for state provided services in psychiatric hospitals or centers. This is the billing to the county for the 10% county net cost of care for state provided services. This must be reported on an accrued basis.
